ABSENTEE VOTING UPDATE

The Election Commission is currently working on amending its Election Law to include Absentee Voting (AV) procedures for eligible tribal members. This is something that has taken much thought and time and will be a great benefit and opportunity.

Our goal is to have the AV process ready for eligible voters by this year's Primary Election (last Saturday in October). This will be a great benefit to tribal members who are:

- Out-of-State College Students
- Enrolled in the Military
- Homebound Seniors

We hope to expand the AV eligibility for all tribal members in the future. We want to make sure that we have a reasonable means to raise our voter participation by accommodating those that are physically unable to vote at the polling place during the Pueblo's tribal elections. We are working to create opportunity for our tribal voters.

Q: How will Absentee Voting be added to the Law?

A: The Election Commission will propose amendments to the law and present a draft to the Tribal Council for consideration. The community will be informed of the process as it moves forward.

Q: Will all tribal members be able to absentee vote for the Primary Election?

A: No. The Election Commission has developed an eligibility list in which AV will be offered. This eligibility criteria will be defined in the amended law.

We still have work to do. There will be more information to come!

FROM THE OFFICE OF THE PROJECT MANAGER

Project Updates

April 2023

Tewa Center Renovation Project

HVAC units have been installed and TJC Construction is currently working on interior upgrades and furnishings. The new exterior corbel is currently being replaced. We are still on schedule for completion in June 2023.

Povi Ka and Shumaa Po Paving Projects

Shumaa Po was paved on April 25-27, 2023. A gas line extension was also installed for the Odo Po properties. The roadway needs at least a week to cure, so striping is planned for the week of May 8, 2023.

El Rancho Property

Renovations continue at the El Rancho Property. Facilities plans on having the Center open for use before May 6, 2023.

Tewa Tank Renovation Project

D&R Tank will start with the interior and exterior coating on May 15th. The project is slated for completion on June 8, 2023; which includes disinfection, new roof gaskets, and signage.

Phase 2 Wastewater Project

The Governor's Office successfully secured \$1.7M from this year's NM State Legislature Capital Outlay funding to complete the project! Phase 2 of the Wastewater Project includes construction of new wastewater collection lines to connect community residents in the Pueblo South area to the current wastewater system. The contract for construction has been officially awarded to CF Padilla contractors from Isleta Pueblo. We anticipate work starting in May 2023; we will provide additional information and details after the pre-construction meeting is held. There should not be any interruption in water or sewer service during construction.

Tribal Administration Building

NM State Legislature funded the project for \$700,000 to "plan, design, and construct" a new facility. The plan is to complete a structural assessment to determine if the existing facility can be expanded; if so, we will complete a feasibility study to determine if the project should advance in to design. If the structural assessment is not favorable, we will follow the Comprehensive Land Use Plan to select a new location/site for a new Tribal Administration Building, and will complete the feasibility studies and design for a new building.

ATTENTION COMMUNITY MEMBERS – Position Available

Souder Miller & Associates (SMA) is seeking a Resident Project Representative (RPR) for the Phase 2 Wastewater construction project. The RPR will be responsible for daily oversight of construction activities and will keep a "log" of daily activities. Construction experience is highly recommended. The position will be for a minimum of 12 months. Salary is negotiable and depends on experience. Please email or drop off a **letter of interest and a one-page resume** to Christy Ladd, Project Manager (located in the Tribal Administration Building) if you are interested.

Gymnasium Renovation Project

The portal addition at the Gym is now complete. This will provide a nice area for outdoor activities for the community. In Coordination with the Governor's office, we will be planning a Grand Opening of the Tewa Center and Gym. More information to come in late May!

Community Wellness Center

The Community Wellness Center (addition to the Gymnasium) design is moving forward. The Governor's Office secured \$700,000 from this year's NM State Legislature for construction of the new facility. Governor Moquino plans to reveal the preliminary design at the Gymnasium/Tewa Center grand opening!

Community Survey

**YOU MATTER, YOUR VOICE MATTERS,
YOUR HEALTH MATTERS**

Greetings! My name is Darrylinn Tafoya and I am the Community Health Worker for COVID-19 Response and San Ildefonso Health and Human Services Department.

I will be conducting a survey gathering household information on the impact of COVID-19. The data collected will be used to gather qualitative information for plans moving forward and for the future of our community. All information given will be confidential. I appreciate any questions and/or feedback you may have.

This will start the beginning of May.

National High Blood Pressure Education Month

The way to know if you have HBP is to have your BP tested.

LaDawn Yazzie, MPH Tribal Public Health Educator

1 About HBP

Half of all Americans have High Blood Pressure, **HBP (aka hypertension)**, and don't know they are already living with it. HBP will happen when blood flows through your arteries at higher-than-normal pressure. Two readings, systolic and diastolic pressure measures the pressure between heartbeats when the heart is filling with blood.(1)

3 American Indian/Alaska Native Data

- AI/AN adults were **10 % more likely than white adults to have HBP**, as compared to non-Hispanic whites
- AI/AN adults are **more likely to be obese** than white adults, **more likely to have HBP**, and they are more likely to be current cigarette smokers than white adults - **all risk factors for heart disease.** (2)

2 Monitor BP

Be still. No smoking, drinking caffeine or exercising 30 minutes before checking BP. Empty bladder and at least 5 minutes before measuring.

Sit correctly. Sit straight, back supported, feet flat on the floor, and legs uncrossed. Support arms on table with the upper arm at heart level. Place cuff directly above the bend of the elbow.

Measure the same time every day.

Take more than one reading.

Record results.

Don't measure over your clothes.(1)

On behalf of the family of Berlinda Faye Garcia we would like to Thank Governor Chris Moquino, Council Representatives, and the Pueblo of San Ildefonso, for all the love and support you have shown and given us during the loss of our beloved Berlinda Faye Garcia.

We appreciate each one of you for reaching out and sharing your love along with all the outpouring food, flowers, cards, and messages of condolences.

It is only with the help, prayers, love, and support of all the wonderful people in our life that myself and my Grandchildren Joshua, Kayla, Kierra and Cuvannah will get through the loss of my daughter and their mother.

To my Mom, Sister's, Brother's, Auntie's, Uncle's and all my Relatives a big THANK YOU 🙏!

Love, Peace, happiness and many blessing from Myra, Mariah, Lance and my immediate family and relatives.
