REVISED ANIMAL CONTROL ACT

Monday, June 26, 2023, at 5:10 p.m.

Tribal Admin. Conference Room/Zoom Video

The Tribal Council's Policies & Procedures Committee has worked with the Administration to review and revise the Animal Control Act. A Public Hearing will be held to gain community input on proposed amendments to the Act. This hearing will be conducted by Facilitator Lucy Moore, on behalf of the Policies and Procedures Committee in order to maintain an unbiased approach to the open discussion.

The Council would greatly appreciate your attendance and comments. A draft document will be available for review prior to the hearing. Please contact the Legislative Office to request a copy. Paper copies will be available at the hearing.

For more information please contact Brandi Martinez, Legislative Manager, at (505) 455-4150 or legislative.manager@sanipueblo.org

**BEWARE OF “F.O.G.” FAT, OIL AND GREASE
CAN HARDEN IN OUR PIPES AND CAUSE COSTLY REPAIRS.**

To the Community of Battleship, Deer Tail and Pajarito Village,

We ask for community members to not pour any type of **Grease down the sink drain. We have noticed large amounts of **Grease** coming into the lift station, so we are asking that if you have any **Grease** to dispose of we will gladly take it to Transfer station for disposal.**

We just don't want the waste water facility to have any type of **Grease problems which could become very costly and interrupt the sewer service within your community.**

Thank you,

SAN ILDEFONSO FACILITIES DEPARTMENT

Congratulations!

Governor Moquino, Tribal Council, and the Pueblo de San Ildefonso Staff would like to congratulate the students who have been promoted or graduated for the 2022-2023 school year. Your family, friends, and community are very proud of this incredible achievement and all of the hard work you put in to get here.

Announcing Behavioral Health Services in San Ildefonso!

Starting in May of 2023 the Pueblo de San Ildefonso's Tribal Administration, Tribal Council and Health and Human Services has partnered with Serna Solutions LLC to bring behavioral health services to its community members.

Services are still being added but in the very near future we plan on offering:

- Individual and Group Counseling for Substance Use and Mental Health concerns (*in-person and Telehealth*)
- Couples and Family Counseling
- Family Empowerment Groups for persons interested in helping a family member who has an addiction.

Please call Program Director, Santana Titla, to make an appointment or to learn more about the program (505) 370-7499 or email her at santana@sernasolutionsllc.com

Make a referral online via the Serna Solutions website:

<https://www.sernasolutionsllc.com/san-ildefonso-behavioral-health-program/>

We are committed to providing community members a secure and confidential environment for your privacy.

"This has been a collaboration of all efforts to bring and provide direct counseling and behavioral health services to the Pueblo members. We've heard the community, and know this is a priority." - Governor Moquino

SERNA SOLUTIONS
Counseling • Coaching • Consulting

GREETINGS,

May is Mental Health Month and we want to take this opportunity to let you know that through the efforts of the Tribal Council, Governor Moquino and the Health and Human Services Department there is a behavioral health program here to serve you! As we begin to offer our services we wanted to share some thoughts with you about the importance of getting help when you need it, whenever you need it. Don't wait for a crisis, or to get into trouble in some way, just come on by and get support. Unfortunately we do know that some people can feel uncomfortable with the thought of getting help for mental health, substance use and addictions due to stigma.

It's no secret that addiction and mental health issues continue to be stigmatized in our society. Unfortunately, this stigma often causes people to suffer in silence and avoid seeking the help they need. Here at San Ildefonso Pueblo's Behavioral Health program, we believe that reducing stigma is one of the most crucial steps towards helping people achieve recovery.

It's also important to remember that addiction and mental health issues can affect anyone. These issues are incredibly common, and should never be a source of shame or judgment. In fact, there are more people in recovery from addiction than there are actively struggling with addiction.

Recovery can be a difficult journey, but it's one that can and does happen every single day. That's why our behavioral health program is here to support those who may be struggling. We offer unique services that help not only individuals but their families as well. Families can learn valuable skills and techniques on how to support their loved ones in our Family Empowerment Project.

Overall, it's essential to remember that there is hope for recovery. San Ildefonso Pueblo's behavioral health program is excited to be a part of this journey and looks forward to serving our community. If you or someone you know could benefit from our program, please reach out. Remember, recovery is possible for everyone!

Program Director, SANTANA TITLA, LADAC is Acoma Pueblo and San Carlos Apache. She has been in the substance abuse field for over 20 years, primarily working in Pueblo communities across New Mexico. She has lived and experienced addiction's negative impact personally, with family, friends and community. That journey caused her to seek help, resources, personal skills and in the process she has found life fulfilling work. Santana has helped people with virtually every type of addiction and their co-occurring challenges.

NADIA HAROON, MPS, LMHC has a Bachelor's in Communications from Ohio University and a Master of Professional Studies in Art Therapy & Creativity Development from Pratt Institute in New York. Nadia completed additional training in Clinical Counseling during her graduate studies and has trained in Integrative Humanistic Counseling. She has earned a certificate in Creative Arts & Health from New York School in New York City. She has a background in Management positions in non profit humanitarian organizations before she trained to be a therapist.

We also Have ADAM BACA, LPCC, who is another clinician with the program. Sorry no picture or bio available at this time.

UPDATED INFORMATION FOR COVID VACCINES

- If you are 6 years of age or older and HAVE received the COVID BIVALENT BOOSTER (Pfizer or Moderna) you are UP TO DATE and do not need to take any action
- Those 65 years and older **OR** are immunocompromised you ARE ELIGIBLE FOR A 2ND BIVALENT BOOSTER

Per recommendations, everyone ages 6 years and older should get a BIVALENT MRNA COVID-19 vaccine dose, regardless of whether they previously completed their primary (monovalent) series.

- Elders remain the most at risk for hospitalization and death, yet less than half of all elders have received a BIVALENT dose. The initial BIVALENT dose offers additional protection that is critical to prevent waning immunity.
- Fewer than a quarter of younger individuals have received a BIVALENT dose.

For individuals who have NEVER been vaccinated, now a single BIVALENT dose of a mRNA vaccine will get them up to date.

COVID Vaccines for children ages 6 months – 5 years

- PFIZER (6 months – 4 years) **OR** ➤ MODERNA (6 months – 5 years)

Depending on vaccines received for this age group, recommendation is to receive 1 or 2 BIVALENT doses. You may call the Santa Clara Health Center if you have questions.

NATIONAL GREAT OUTDOORS

LaDawn Yazzie, MPH, Tribal Public Health Educator

Did you know that June is *National Great Outdoors Month*? This month recognizes and highlights the natural beauty we live in and among. Whether you decide to take time to enjoy a walk, bike a trail, camp out, or enjoy a day fishing, nature is calling!

There are mental health benefits of outdoor adventures. One study found outdoor and adventure education programs **increased mindfulness** in young individuals. In addition, it was determined outdoor activities can **improve beliefs** that individuals they can complete a task or goal (self-efficacy), and it also opened up opportunities where people **evaluated different aspects** of their lives (subjective well-being). The key finding suggests that outdoor education and wilderness programs **can foster mental health** in youth and young individuals. So when you get a few minutes, plan some time in your day to explore the great outdoors.

Other activities could include taking a photography class, camping in your backyard, or exploring and identifying the wildlife within your surroundings.

Traveling Tips when Planning a National Park Visit:

- 1 Check fees, many don't charge or have a free day
- 2 Find a Park Nearby
- 3 Check Out Park Maps
- 4 Read About the Park You are Visiting
- 5 Check Out Online Reservations

FREE SELF-DEFENSE CLASSES FOR COMMUNITY MEMBERS

BEGINNING APRIL 1, 2023

KRAV MAGA

With the rising incidents of violent attacks in the world, have you ever been concerned about how to protect yourself? Don't be a victim! Learn how to protect yourself and your family.

The Pueblo of San Ildefonso Health and Human Services Department and Sanchez Tactical have partnered to bring Krav Maga self-defense training opportunities to San Ildefonso Pueblo Community Members.

Make an appointment, FREE of charge, while sessions last.

WHAT?

Krav Maga is the official self-defense system of the Israeli Defense Forces and has been taught to hundreds of law enforcement agencies and thousands of civilians in the United States. The Krav Maga system is based on a simple and effective self-defense system that emphasizes instinctive movements, practical techniques, and real-life training scenarios.

CHANGES TO HOURS

Please be aware the Transfer Station is now CLOSED during the lunch hour 12:00pm to 1:00pm

We do not take oil and tires. The cost to dispose of these items is VERY costly and can take years to get rid of. Due to community members leaving these items when an attendant is not present, we have taken the measures to close during the lunch hour. We are very sorry for the inconvenience.

We encourage you to take advantage of the Buckman free tire event posted in calendar or dispose of them right away when tires get changed. Most Auto repair shops will take successfully collected oil such as AutoZone or Jiffy Lube

Improvement Projects at the Transfer Station

The Transfer Station will be under improvement and construction. The project will be taking place the beginning of **June and go through August.**

We are hoping this will not affect the daily operations, however, we are asking the community for your patience and cooperation with the following:

- **Speed Limit - extra works maybe on site during this time. Please slow down when entering and leaving premises.**
- **Signs—please obey all signs and closed off areas.**
- **Bins— The Recycling bin, Metal bin, E-Waste and Appliance areas will be moved TEMPORARILY.**
 - ⇒ Please look out for signs on where to dispose. **DO NOT** place waste anywhere other than designated areas. If you are unsure where to place items, please ask an attendant for assistance.

Your cooperation is greatly appreciated. Transfer Station Staff

Spring Arts & Crafts Show

We would like to give a big “Thank You” to our Pueblo’s artists, the Head Start Parent Committee and our Community for a successful arts and crafts show, held on April 29, 2023. We had many positive comments about the show and about the new patio area.

We would also like to say “Thank you” to Governor Moquino for continuing to support the Tourism department and the Pueblo’s local artisans.

We would like to invite our artists to come set up in the patio area and sell their artwork. Call to inform us if you wish to sell. There is a covered area with tables available, but you are welcome to bring your own tables and chairs.

The Visitor Center is still housed in the Pueblo’s museum, but we are looking forward to when we return to the Tewa Center. Our temporary phone number is (505) 455-4151, if you need to get in touch with us.

Thanks again for your continued support!

BECOME A YOUTH ADVOCATE FOR YOUR TRIBAL COMMUNITY!

New Mexico Indian Affairs Department
Commerical Tobacco Cessation & Prevention Project

*Did you know that **11.2%** of American Indian and Alaska Native middle schoolers use e-cigarettes, and **6.7%** smoke cigarettes?

Keres Community Health (KCH) is looking for youth participants to share their experiences of how they been impacted by commercial tobacco or why they use traditional tobacco to live a healthy life. Also, KCH will interview and collaborate with the youth to create a comic illustration from their own stories and experiences.

The project will provide a fresh approach to youth education in relation to **abstaining from nicotine products and connection to cultural values**. The comic illustrations will be custom designed, printed, and distributed to different Tribal communities, programs organizations, and schools across the state of New Mexico! Please contact **Josiah Concho** and **Joni Chee** for more information.

Dear Parent/Guardian:

We are **Keres Community Health (KCH)**. KCH is an initiative of **Keres Consulting, Inc.**, a Native American Small Disadvantaged Business with expertise in supporting health initiatives in Native American communities. We strive to ensure health equity in Tribal Communities through best practices, outreach and engagement, self-determined education, partnerships, and sustainability.

KCH is currently working with the New Mexico Indian Affairs Department for its Tobacco Cessation and Prevention Program. This project will provide a fresh approach to youth education in relation to abstaining from nicotine products and connection to cultural values as a protective factor from risk behavior. According to the most recent available data, 11.2% of American Indian and Alaska Native (AI/AN) middle school students use e-cigarettes, and 6.7% use cigarettes (New Mexico Risk and Resiliency Survey, 2017). Among AI/AN high school youth, 11.5% use e-cigarettes and 11.5% use cigarettes (NM-IBIS, 2019).

KCH will lead creation of a comic strip series with New Mexico Indigenous youth as protagonists. In these comics, the target audience will see themselves portrayed in the comic books as the stories' heroes while learning important healthy lifestyles. KCH will interview and collaborate with youth statewide to create a comic strip for each of the 22 tribes in the state. The one-hour interview will include a discussion about the impact of commercial tobacco and a creative brainstorming session about the comic character design.

The commercial tobacco education comic book project will primary be designed for youth, with an emphasis on middle school students. The comic book series will be inspired by the stories of tribal youth that have been impacted by commercial tobacco. The comic series will also include stories from youth that respect the use of traditional tobacco and cultural values as a protective factor from commercial tobacco.

The comic strips will be available for digital publication as well as compiled into a print comic book that teachers, health educators, youth leaders, and others can use in the classroom for lessons, to hang as educational posters, or simply used as a form of entertaining reading.

Thank you very much for your time. If you have any questions or concerns about the project, please contact **Josiah Concho** at **JConcho@keresnm.com** or at **(505) 508-8041**.

Sincerely,

A handwritten signature in black ink that reads "Josiah Concho".

Project Updates

May 2023

Gymnasium Renovation Project

The Gymnasium renovations are still on schedule to be completed by June 15, 2023. Insulation was installed the week of May 15th. Window replacement began on May 25th and will take approximately two weeks. Electricians are scheduled for the first of June to complete the lighting fixtures.

Tewa Center Renovation Project

TJC Construction is currently working on completion of restroom renovations and door installations. The Tewa Center is also still on schedule to be completed by June 15, 2023.

We are planning a grand opening of both facilities and will keep the Community updated on the future event.

Povi Ka and Shumaa Po Paving Projects

Striping and speed hump installation was delayed due to weather. Striping will now take place the first of June. During the striping process, Highway Supply, Inc., will also be installing tubular markers to separate the walking path from the roadway – this will provide safety precautions for pedestrians and bicyclists.

Community Wellness Center

Anchor Engineering, LLC has been awarded the design/build contract to complete the new Center. The 30% design has been accepted. Anchor Engineering will present the design to the Tribal Council when it reaches 75%.

Tewa Tank Renovation Project

D&R Tank started the interior and exterior coating on May 15th. The project is on schedule to be completed June 8, 2023; which includes disinfection, new roof gaskets, and signage.

Phase 2 Wastewater Project

The Phase 2 of the Wastewater Project includes construction of new wastewater collection lines to connect community residents in the Pueblo South area to the current wastewater system. The pre-construction meeting was held with CF Padilla Construction on May 22, 2023. Construction will begin in June 2023 and will be an 11-month project. We will be providing the Community with a detailed construction schedule in June. Please contact the Human Resources Department for potential employment opportunities with CF Padilla.

Irrigation Equipment

The Pueblo has purchased seven irrigation pumps for residents to use. There are five ½ Hp plug in pumps and two engine driven (gas powered) pumps. There are also water hoses and hose kits. Please contact the Project Manager to check out.

Roofing Projects

The Church, Senior Program, Realty Bay, Facilities, and the Learning Center have been completed. The Administration Building is scheduled for completion the week of May 30, 2023.

Transportation Program

The Pueblo's Long Range Transportation Plan (LRTP) is currently being updated. Community input is needed in order to identify the Pueblo's construction projects, safety concerns, and maintenance priorities. We will be posting a survey link on the San Ildefonso Website; your participation is greatly appreciated.

If you have questions on any of the projects in the Pueblo, please contact the Project Manager :

San Ildefonso Broadband

SIS is pleased to announce the start of our environmental review and approval from BIA, NTIA and National Environmental Protection Agency (NEPA). After preliminary review and approval by the Pueblo, consultation letters have been sent. Once that is completed, the approval process will be initiated with all three federal entities. The Broadband Infrastructure Deployment project design and technical needs assessment are underway. All Pueblo member homes will be connected directly to the fiber infrastructure, with towers to provide cellular coverage in the Pueblo, along with NM Highway 502 and NM State Road 4.

Solar

SIS, with our subcontractor, Avant Energy, has completed the Solar Feasibility Study and the results and findings have been shared with both the Pueblo and SIS. With SIS taking the lead, the study will be utilized to create projects to not only provide the Pueblo clean energy, but also revenue by providing solar power to surrounding businesses and communities.

Tewa Market and Fuel

Totavi Tewa Market and Fuel is under new management. SIS's focus for our stores is on excellent customer service and product availability. With this in mind, SIS has moved forward with replacing management with a new team that will be focused on creating a new customer service-oriented store with a greater availability of products.

NEED HIGH-SPEED INTERNET?

CHECK THE NATIONAL BROADBAND MAP!

The FCC has a new map showing where high-speed service is – and is not – available across the country.

High-speed, high-quality internet service is essential for participation in modern life.

The map shows where internet service providers report service and includes input from consumers.

This is where YOU come in!

Help Improve the Map

Search for your home or small business to see if your location and service availability are accurate on the map. If you think the map is incorrect or incomplete, you can submit a challenge to the FCC to correct it.

Location Challenges can

- Add a missing location.
- Correct the address or other details of your location.
- Correct the geographic placement of your home or small business.

Service Availability Challenges can

- Correct services not offered or reported speeds that are not available for purchase.
- Report that a provider denied a request for service or demanded connection charges that exceed its standard installation charge.
- Report that a provider failed to schedule an installation within 10 business days of a request for service or failed to perform the installation.

Mobile Availability Challenges

Will be created using the FCC Speed Test App. To participate, download the App. The data that you share will be combined with other speed tests conducted in your area and may be used to create a challenge.

Accurate Maps = Improved Internet Access

An accurate map will help identify the communities most in need of funding for high-speed internet projects.

New Mexico's
Future**

Designed for New Mexico Communities

Every New Mexican needs access to affordable and reliable high-speed internet connectivity. Since the start of the 21st Century, reliance on broadband has grown to become a necessity. The Covid-19 pandemic accelerated the need for all families to be able to access education, work, health, social, and essential services online.

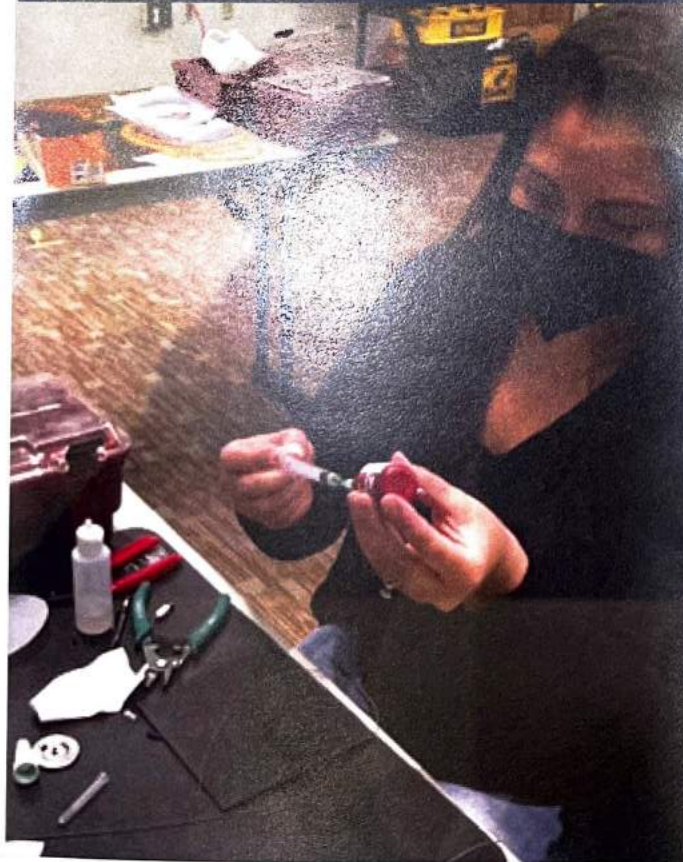

From the GigaPop Centers to building and maintaining the institutional, civic, and middle and last mile fiber and wireless networks that provide service to New Mexico homes and businesses across the state, Santa Fe Community College is committed to training the next generation of broadband workers who will build and maintain the broadband networks that will support digital equity in our communities.
