OFFICE OF PROJECT MANAGEMENT

Mr. Lou Harrington is now the Pueblo's Project Manager. He has been with the Pueblo off and on doing project management for the last 4 years.

Construction updates:

October Waterline construction.

- 1) The construction by the administration building will cut across Tunyo Po and only one lane will remain open. Traffic will be controlled by flaggers. The construction will end temporarily in the vicinity of the gym.
- 2) The construction by the senior center road will continue south and eventually cut across Tunyo Po. The Senior center, HHS offices and mail boxes will remain open. Flaggers will control traffic as construction nears crossing Tunyo Po.
- 3) Construction will continue near the Pajarito water tank.
- 4) Clearing and grubbing in the El Rancho pond area may start in October.
- 5) The museum is temporarily closed to prevent any damage to displays from construction vibration. All items have been packed away.

Wastewater construction.

- 1) The last remaining item of Wastewater II is the application of base coarse on Than Povi Po. This will begin the latter part of the week of Sept. 29th. The road will not be closed unless it is necessary. The material will fix the problem of the road becoming impassable whenever it rains or snows.
- 2) Wastewater III entails fixing/replacing the lagoons. The Wastewater Treatment Project will consist of installing an Orenco Advantex® treatment system.
 - The treatment system will be similar to the current treatment system in the Pajarito/Battleship Mountain housing area.
 - The project will use an updated Orenco AX-Max treatment unit.
 - The new treatment system is expected to benefit 118 homes and 9 tribal facilities and businesses. The system can be expanded to accommodate future growth.
 - Begin Construction – February/March 2026
 - Complete Construction – Fall 2026

Healthy Kids, Healthy Community Program

Healthy Kids Healthy Preschool Challenge

We encourage preschoolers to join the Healthy Kids Healthy Preschool Challenge. In this 4-week initiative, preschools aim for 2 hours of physical activity each day and less screen time.

- With the partnership with preschools in New Mexico to make healthy eating and physical activity a part of their daily routine. Together, we engage families, create wellness policies, promote staff wellness, organize healthy lifestyle challenges.
- **Why it Matters:** Nearly 1 in 4 children ages 2 to 5 in the United States are overweight or obese. Children who are obese are more likely to develop diabetes and heart disease as adults. Preschools and families can help children grow into healthy adults by teaching them to eat healthy and stay active.

Best Way to Recycle Halloween Pumpkins

The best way to recycle Halloween pumpkins is to **reuse them** for various purposes, such as making pumpkin puree, roasting pumpkin seeds, or composting them. Here are some of the best methods to recycle your pumpkins

- **Make Pumpkin Puree**: Use uncarved pumpkins to make fresh pumpkin puree, which can be used in recipes or stored in the freezer for later use.
- **Roast Pumpkin Seeds**: Roast pumpkin seeds for a crunchy snack or add them to baked goods.
- **Compost**: Compost pumpkins to enrich your garden soil, as they are nutrient-rich.
- **Donate to Community Gardens**: Donate uncarved pumpkins to local community gardens for composting and growing more food.
- **Feed Wildlife**: Cut pumpkins into chunks and place them in your yard or nearby forested areas for wildlife to snack on.

By following these methods, you can help reduce waste and contribute to a more sustainable environment.

**DROP OFF YOUR
USED PUMPKINS ON
NOVEMBER 2nd - 4th**

WE WILL TAKE THEM TO FEED THE WILDLIFE

Please don't tape flyers to traffic signs!

Traffic signs like stop signs and yield signs must be kept visible!

Tape can also damage the signs.

Please tape flyers and yard-sale signs, etc. to the metal pole below the sign, or to a different surface.

Road closure update!

Construction continues on 502 and Tunyo Po.

Please be careful when driving and respect pedestrians and the people working on the road!

Drive the speed limit and allow extra time for delays!

Monday, September 29 – Sunday, October 5, 2025

if you can drive or afford a car, you may not understand what it's like to rely on walking, rolling, transit and asking for rides. But for nearly a third of people living in the United States – people with disabilities, young people, seniors and people who can't afford cars or gas – this is our every day.

October is still a great time for bike riding. People all over the world use bikes and scooters for transporting stuff. Check these pictures out:

Na vi' Po'woh geh Towa-in',

October 2025

The following are the San I Tewa words for the month of October. Please practice these words and maybe try to put a sentence together from past words that I have given you.

➤ October	Kaa'-yemu Po' (Falling Leaf Moon/month)
➤ Ripe	P'ay
➤ Apple	Bae
➤ Pumpkin/Squash	Po'
➤ Corn	Kun'
➤ Thunder	Kwa-tah
➤ Peaches	Bae-po'-e
➤ Falling leaves	Ka'-yemu
➤ Yellow leaf	Kaa'-tseh
➤ Cottonwood	Tay-song' (song' - wood)
➤ Pine	Yan'
➤ Cedar	Huu'n
➤ Fire	Paa'
➤ Getting cold	Oh-ka-de pu'-wa-man'
➤ Jacket/sweater	Suu-wa toh

Our San I Tewa Tunn' is not an official written language, but this is the way that I spelled these words, as how I say it and learned it. You may spell it a little differently, and that's OK. Questions give me a call and/or email. Kun-da-woh-ha!!

Tewa Language Department

September 22, 2025

Na-vi Po'-woh-geh Towa-in,

We will again start some Tewa Language classes come this month, starting on October 7, 2025 at 6pm for all who are interested in learning your language, for those of ages 15 and up. They will be conducted during the evenings, twice a week at the DECP Conference Room (for the women) and the Health and Wellness Center (for men). Of these two classes (for now), once you come to the class, you will decide with the mentors when times are best for your days to have your languages classes.

I would hope that some of you will be interested in coming to the classes. As many of you know, we **DO NOT** want our language to go silent. Its up to us who know the language and to talk to this generation and the generations yet to come, to make sure we keep our language alive and well. This is what identifies us as Po'-woh-geh Towa in'. And we should be proud of who we are and where we come from. So please if you have relatives that speak our Tewa tun, please, please...tell them to speak to you in Tewa, and if they forget, remind them. We and they need to hold ourselves accountable, to make sure it is spoken in the homes and in our traditions, so that everyone will start speaking our language slowly and can then pass that on to our next generation. **Very important!!**

So, if you are interested in coming to the classes, please do give me a call at my office @ 505-455-4170 or just email me at Tewalangmgr@sanipueblo.org. I need a count of how many are interested, so in case I need another class.

PS: We certainly do not want what happened at the CADDO NATION in Oklahoma someday (see attached). This is sad, when it gets to this point!! ☹️

September was Suicide Prevention Awareness Month

Key Takeaways:

Suicide is preventable. Combining knowledge, care, and compassion can make a real impact.

Suicide is complex and influenced by many interconnected factors. Knowing the warning signs of suicide saves lives.

Preventing suicide means understanding risk, accessing supportive, proven care, and sharing hope because healing is possible.

Hope and resilience grow when people feel heard. This can guide people to find strength even in their darkest moments.

When people feel respected, heard, and valued, they are more likely to seek help and stay connected.

Real connection can help prevent a crisis. A simple check-in, conversation, shared story, or helpful resource can make someone feel less alone. Remember—sharing truly is caring.

Hearing from those with lived experience makes suicide prevention more hopeful, more human, and more healing.

Suicide Touches Every Community.
