Native Seeds/SEARCH relies on partnering with a network of southwestern farmers to grow out and increase the seed varieties we steward, with a focus on working with indigenous farmers growing in or near the areas these seeds are originally from. We are looking for more farmers to partner with us to do grow-outs, whether through a seed exchange agreement or a contract agreement.

**Bulk Seed Exchange**
A seed exchange agreement involves farmers receiving seeds from us and at the end of the season they return 3x (1.5x for Native Farmers) times the original amount of that seed to NS/S (provided they have had a successful harvest, there is no financial penalty for crop failure). The returned seed should only represent a small fraction of the total seed harvested so that participants can harvest plenty for food or save seed to plant in the future.

**Contract Growing**
Experienced farmers capable of growing a quarter acre or more of a particular seed variety may be interested in being paid to grow seed as a part of a contract agreement, where NS/S will pay the grower to grow out select varieties. Interested participants should contact NS/S to discuss the varieties they are interested in growing and the amount of land they plan to cultivate.

Due to limited quantities, not all varieties in the collection may be available, but we will work with participants to match requests with seed availability. Please contact us at 520.622.0830 xt.115 or email us at info@nativeseeds.org.

**Native American Seed Request**
Roughly two-thirds of the seed varieties in the Native Seeds/SEARCH collection originate with Native American communities in the southwestern U.S. and Mexico. NS/S works to ensure that indigenous people continue to have access to these traditional seeds through the Native American Seed Request Program. For Native American individuals and families living in the Greater Southwest Region, or belonging to tribes from the Southwest Region regardless of residential location: you may request 10 free seed packets per household per year (Jan - Dec). You may purchase up to 20 additional seed packets at $2 per packet.

- Native American identity for this program is self-reported and no tribal identification card is required.
- No more than 3 packets of any one seed variety per request.

**HOW TO ORDER SEEDS:**
There are several ways to place your order. Please, only one order-form per household. Shipping charges requested are $3.95 per 10-packet request.

Download and mail this order form to 3584 E River Road, Tucson, AZ 85718 OR email the order form to orders@nativeseeds.org OR, call 520-622-0830 x113, or toll-free at 866-622-5661 x113, 10am to 5pm, Monday through Friday; For those without internet access, we can mail a print catalog; call 520-622-0830 x113 to request one.
How can I prevent high blood pressure?
You can help prevent high blood pressure by having a healthy lifestyle. This means

**Eating a healthy diet.** To help manage your blood pressure, you should limit the amount of sodium (salt) that you eat and increase the amount of potassium in your diet. It is also important to eat foods that are lower in fat, as well as plenty of fruits, vegetables, and whole grains. The DASH eating plan is an example of an eating plan that can help you to lower your blood pressure.

- **Getting regular exercise.** Exercise can help you maintain a healthy weight and lower your blood pressure. You should try to get moderate-intensity aerobic exercise at least 2 and a half hours per week, or vigorous-intensity aerobic exercise for 1 hour and 15 minutes per week. Aerobic exercise, such as brisk walking, is any exercise in which your heart beats harder and you use more oxygen than usual.
