**Subject:** San Ildefonso Pueblo water meter inventory project deadline extension

Thank you for attending the pre-proposal meeting for the San Ildefonso Pueblo water meter inventory project this morning. IHS and San Ildefonso want more time to think about and address the useful input that several of you gave at the meeting, so we are extending the proposal deadlines as follows:

Deadline for submitting questions to IHS: January 31, 2024

Proposal due date: February 2, 2024

IHS and San Ildefonso will issue an addendum that clarifies the various issues that were raised today by January 26, 2024. This will be emailed to all those who attended the meeting today and will be posted on ConstructionReporter.com and the Pueblo's website.

Best regards,

Tom Slocum, PE
